Magswitch 5070 Manual Sheet Fanner

P/N: 8100871

The Magswitch Manual Sheet Fanner utilizes different sized magnets to deliver a powerful magnetic field. When placed on sheet steel stack, this allows the tool to force individual sheets apart. The Manual Sheet Fanner is a portable, free floating tool that is capable moving down a stack with auto-indexing functionality. Its chamfer design allows for fanning on uneven stacks. It features a guide rod bearing for more controlled movement down a stack, if desired. With manual ON/OFF actuation, the Manual Sheet Fanner offers a safe and efficient way to separate steel sheets.

WARNING!
Do Not Operate Unless In
Contact With Ferrous Target

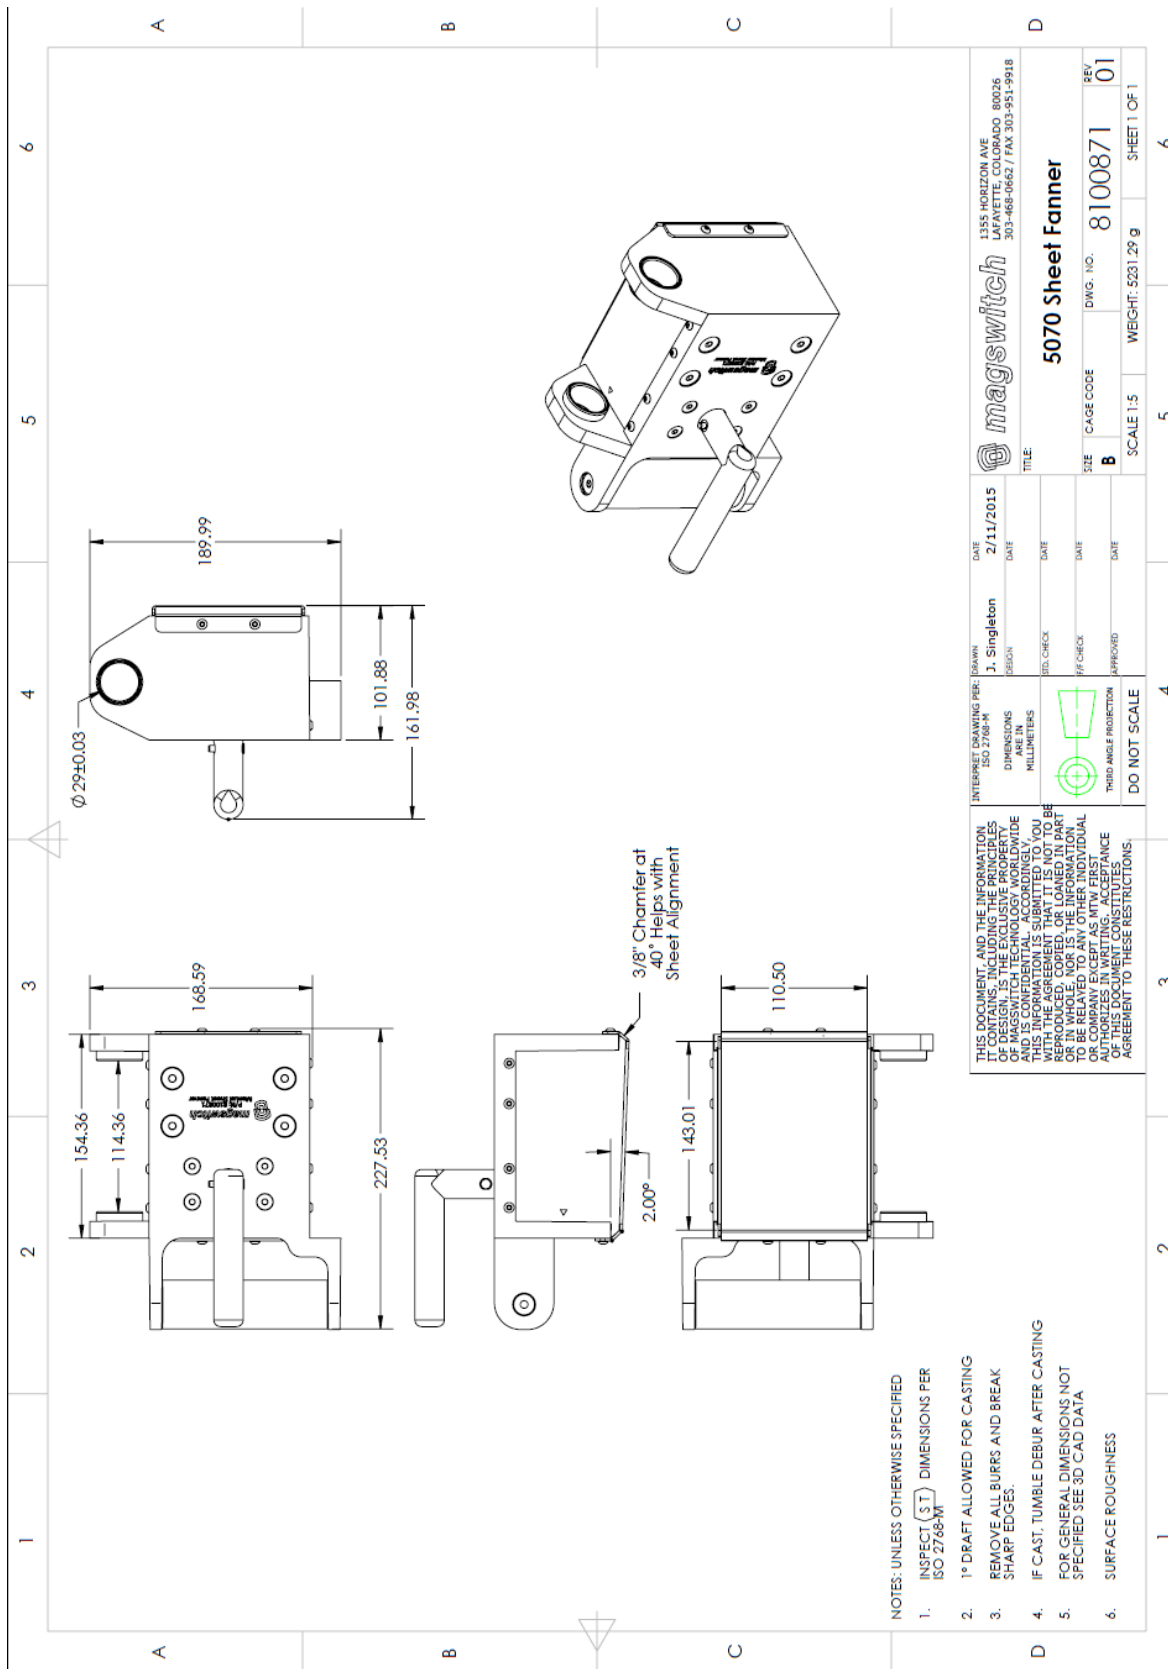

SPECIFICATIONS	
P/N: 8100871 - MAGSWITCH 5070 Manual Sheet Fanner	
Net Weight	14.8 lbs/ 6.7 kg
Overall Height	228.1 mm
Magnetic Pole Footprint	143.1x110.5 mm
Guide Rod Bushing Inner Diameter	29 mm

Part Number 1101115
Revision Date: November 28th, 2016
